Ann, is still working on the FCR stuff, but was unavailable today. However, today was about the Coordinated Tribal Water Quality Program which I run - hence my facilitation role. Also my work as a policy analyst here draws me into all things water quality. Therefore, I will likely stay engaged in the total rule making package as it moves along. Also, several tribes and NWIFC staff are interested in broadening engagement beyond the FCR in order to support a good rule development for human health criteria

In short you can always include us both if you need to contact.

later,  
Todd

Hi Todd,  
Thanks, glad I could be there. I thought it was a good meeting. By the way, are you taking over for Ann Seiter or was she just unavailable today?

Matt,  
Just wanted to say thanks again for coming down. We appreciate you driving down and participating - It was very helpful to have you there. People really appreciated you and Ecology taking the time, and I think peoples understanding has been greatly increased.

Cheers,  
Todd
